PROJECTS

Aimee App | Frontend *Developer* | *React Native*

- Aimee is a mobile app designed to help individuals develop mental and emotional strength through the help of Artificial Intelligence.
- The app offers voice interaction capabilities so users can record their voices and communicate with Aimee's AI, to receive personalized guidance and support.

Fitness Lap Tracker | *Backend Frontend* | *JS* | *HTML* | *CSS* | *JQuery*

- Utilizing Scanners to track ~150 students per period as they run laps
- Laps are organized by teacher and period
- Collaborated with the head of the PE department

2D Side Scroller Platform Game | *Level Designer* | *C#* | *Unity*

- Develop missions and levels according to the global vision of the game's objective
- Assisting the game designers in the development and evolution of the game's content and functionality

WORK EXPERIENCE

Resilience Inc. | Tampa, Florida | *React Native Developer*
July 2023 – November 2023

- Contributed actively to team meetings, providing valuable insights and suggestions for process improvements.
- Quickly adapted to new technologies, software, and tools, facilitating smoother project execution.

Triton Hack | La Jolla, CA | *Volunteer*
May 2023

- Provide general support and answer inquiries from participants throughout the event.
- Projects were coded in Python, in addition to HTML and CSS
